UHF LED Non-Printable Label

This non-printable LED UHF tag enhances traditional RFID technology by incorporating an LED reminder feature, allowing for quick and efficient item location in environments such as warehouses and freight stations. It helps streamline inventory management, making it easier to pinpoint specific items when needed.

Widely used in sectors like warehouses, hospitals, libraries, and more, this technology supports a range of applications, including inventory item tracking, shelf management, equipment placement, clothing search, book retrieval, and document location. It provides reliable solutions for safety, authentication, and traceability.
